

QMUL systems you need to know about

Zi Parker

October 2025

MYSIS

https://mysis.qmul.ac.uk/urd/sits.urd/run/SIW_LGN

Academic Progress Tracking

MySIS records supervision meeting logs to monitor postgraduate research students' academic progress and mentorship.

Personal Data Management

Students can update their personal information like addresses to ensure accurate university communication and records.

Office365

<https://www.qmul.ac.uk/its/services/catalogue/emailandcalendarinq/office365/>

Comprehensive Tool Suite

Office 365 offers essential applications like Word, Excel, PowerPoint, Outlook, and Teams for productivity and communication.

Seamless Collaboration

Integration of Office 365 enables document sharing and communication across the university community efficiently.

Remote Accessibility

Office 365's online platform allows users to access files and tools from any location, supporting remote work.

Support Resources

The university's IT Services provide detailed guidance and support for maximizing Office 365 benefits.

CPD Training System

<https://cpd-training.qmul.ac.uk/login/index.php>

Centralized CPD Management

The system serves as a central platform for managing and booking CPD activities for staff and PGRs.

Mandatory Research Training

PGRs complete essential courses like Research Integrity Essentials before their first-year review.

Progress Tracking and Support

The system helps users monitor development progress and find further training opportunities.

User Guidance and Resources

The Doctoral College provides detailed instructions to help users navigate and utilize the system effectively.

Skills Points Plug-in

<https://cpd-training.qmul.ac.uk/login/index.php>

Access and Manage Records

Students can access and manage their Skills Point Record through the CPD Training System to track development activities.

Add Unrecorded Activities

The plug-in allows students to add activities not automatically recorded, ensuring all experiences are captured.

Support Professional Development

This tool supports comprehensive tracking of development, encouraging active participation in diverse training programs.

Guidance from Doctoral College

Detailed instructions are provided by the Doctoral College to help students document progress and meet milestones.

QMPlus

<https://qmplus.qmul.ac.uk/>

Centralized Learning Hub

QMPlus acts as a centralized platform for course materials, assignments, and academic resources tailored to the university community.

Support for Research Students

The platform offers specialized resources and guidance for postgraduate research students, including academic procedures and training events.

Interactive Student Engagement

QMPlus facilitates interaction between students and faculty through discussions and collaborative tools enhancing the learning experience.

LinkedIn Learning

Comprehensive Course Library

Offers over 16,000 courses in technical, business, software, and creative fields for varied skill development.

Support for Postgraduate Students

Valuable for postgraduate research students to enhance skills beyond traditional academic training.

Professional Development

Enables self-paced learning, certifications, and staying current with industry trends for career growth.

University Support for Lifelong Learning

Free access by university demonstrates commitment to career readiness and continuous education.

Elements

<https://publists.qmul.ac.uk/login.html>

Central Research Documentation

Elements provides a centralized platform for documenting and managing research activities for academic staff and students.

Thesis Submission Process

It facilitates mandatory submission of final thesis versions to the library, essential for academic award processing.

Research Outputs Recording

Elements allows recording of various research outputs including publications, presentations, and collaborations.

Support for Academic Administration

The system aids academic administration and research tracking, helping postgraduate students maintain professional portfolios.

Thank you
