Planned internal audit reports [ARC24/44]

2024.053 The Committee **considered** three planned internal audit reports. The reports had come back with 'significant assurance' or 'significant assurance with minor improvement opportunities', continuing a positive trend in audit reporting. The

'significant assurance' rating on space management was among the highest of the Russell Group institutions audited by KPMG.

Capital projects internal audit [ARC24/45]

- 2024.054 The Committee **noted** the terms of reference for an additional internal audit on the costing of capital projects, which the Committee had approved previously via email circulation. The audit had been commissioned following challenges with costings on the School of Business and Management and Queens' Building projects. The audit was underway and would be circulated to the Committee when complete.

Higher Education Standard of Recommended Practice [ARC24/48]

- 2024.058 The Committee **considered** an update on the Higher Education Standard of Recommended Practice (SORP), which would come into effect for the 2026–27 financial year. Proposed changes to the revenue recognition and treatment of bursaries and scholarships would be challenging, considering the scale of this activity at Queen Mary. The changes would not have an impact on covenants.

- 2024.059 *Minute 2024.059 is confidential.*

Fraud or financial irregularities [Oral report]

- 2024.060 *Minute 2024.060 is confidential.*

Delegation framework [ARC24/50]

- 2024.061 The Committee **considered** an update to the Delegation Framework. A section had been added to confirm Council's role in ensuring that the articles of association of subsidiary entities align with the governing documents of the University. Finance and Investment Committee had reviewed the document and proposed that Council's role should extend to the approval of financial and tax structures of subsidiaries. A further iteration of the Delegation Framework in the next academic year would tie together the document more closely with the Scheme of Delegation of Financial Authority.

Scheme of Delegation of Financial Authority [ARC24/51]

2024.062 The Committee **considered** an update to the Schedule of Delegation of Financial Authority. Changes to the capital expenditure thresholds previously approved by Finance and Investment Committee and Council were now included. The document also provided greater clarity around the requirement for commitments of over £5m per annum which span over five years or more to be approved by Council on the recommendation of Finance and Investment Committee.

Minutes of the previous meeting [ARC24/52]

2024.063 The Committee **confirmed** the minutes of the meeting held on 11 March 2025.

Matters arising [ARC24/53]

2024.064 The Committee **considered** the matters arising.

Annual schedule of business [ARC24/54]

2024.065 The Committee **considered** the annual schedule of business for 2025–26. The schedule showed a roll forward of the standard items. The deep dive on student employability had been provisionally rescheduled for September, when relevant benchmark data would be available, but may be moved onto the Council agenda instead.

Annual review of the internal and external auditor appointments [ARC24/55]
