

# Landing Pages in the New QMplus theme

# Overview

- What happens now..
- How will it change? - The new landing page format
- What stays -
  - Landing page blocks
  - Banner image
  - News feed
  - Mobile
- and what goes?
  - Dashboard, straight rows
- Preparing for the change
- Making it look good

### Your school landing page (general)

### Your school landing page (news and information)

### The Module dashboard on your school landing page

The QMPlus Home is totally useless. Everytime I log in I go automatically to My QMPlus. I do not even read anything. It is a waste of time (and 4G) having to load this page, instead of My QMPlus directly.

The QMplus page looks too busy. A more simplified landing page, like that on the new app with bigger icons which narrow down a search would be useful and less daunting. Navigating would be much easier.

As for the graphic billboard of qmplus home page, which is on the left of browse modules/MyQMplus (1), there should be a button or something to move forward or backward.

I feel like they add unnecessary information in the home page i.e twitter feed,

School homepage is sometimes hard to navigate and find quickly what I want to find

Landing pages are great, but are tricky to navigate to sometimes.

The MBBS landing page is very good, and very easy to navigate. The actual QMPlus homepage is not good, it is difficult sometimes to get to the MBBS page, which is all that I need most the time
